

Installation service Nest Thermostat V3

You bought a Nest Thermostat V3 including installation service via Coolblue. In this manual, we'll explain how to make an appointment with the professional installation service.

What do you need?

If you purchase a Nest Thermostat V3 including installation, you'll receive a unique voucher code via email. You'll receive the email with the voucher code the same day you receive your Nest Thermostat. You can redeem this voucher for 1 installation service by the installation company Roamlertech.

How do you make an installation appointment?

1. Go to this website: <https://coolblue.roamlertech.nl/nest>
2. Enter the unique voucher code you received via email on the day your Nest Thermostat was delivered.
3. Choose an installation date and time.
4. The appointment will be confirmed by Roamlertech via email.
5. You'll receive a reminder via email the day before the installation.

Appointments

The appointments take place 7 days a week, between 8:00 and 20:00. The installation thermostat can be installed 2 days after the request was submitted.
